

OpenNebula - Bug #1258

The parser tries to parse commented lines if the line does not end in newline

04/26/2012 10:49 AM - Carlos Martín

Status:	Closed	Start date:	04/26/2012
Priority:	Normal	Due date:	
Assignee:	Ruben S. Montero	% Done:	0%
Category:	Core & System	Estimated time:	0.00 hour
Target version:	Release 3.6	Pull request:	
Resolution:	fixed		
Affected Versions:	OpenNebula 3.4		
Description			
<p>If onetemplate uses this text (without a newline at the end), the core tries to parse the last line</p> <pre>NAME = A # should not fail to parse</pre> <p>[TemplateAllocate] Error allocating a new virtual machine template. Parse error: syntax error, unexpected VARIABLE, expecting EQUAL or EQUAL_EMPTY at line 2, columns 19:22</p> <p>The error message also says that the syntax error is in line 2 columns 19:22, when it is actually 10:13. It is adding 9 columns from the first line.</p>
