

OpenNebula - Bug #2057

Template DISK size always in MB

05/16/2013 10:33 AM - Markus Rodi

Status:	Closed	Start date:	05/16/2013
Priority:	Low	Due date:	
Assignee:	Daniel Molina	% Done:	100%
Category:	Sunstone	Estimated time:	0.00 hour
Target version:	Release 4.0.1	Pull request:	
Resolution:	fixed		
Affected Versions:	OpenNebula 4.0		
Description			
<p>While creating a volatile disk for a Template you can choose between MB and GB as size of that disk in sunstone. But by choosing GB the Template still creates a VM with the disk size in MB. You can only create for example a 10GB disk if you type in 10000MB.</p>
