

OpenNebula - Bug #219

TM SSH mv should delete target directory when saving/migrating

04/22/2010 08:05 PM - Javi Fontan

Status:	Closed	Start date:	04/22/2010
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Core & System	Estimated time:	0.00 hour
Target version:	Release 3.4	Pull request:	
Resolution:	fixed		
Affected Versions:	OpenNebula 3.0		

Description

When a stop or migration is being performed a MV command like this is issued:

```
MV hostA:/path/7/images hostB:/path/7/images
```

If the target directory is not clean and images directory exists then a new images directory will appear inside old images dir. Restore of that VM will crash as the files are not in the place oned thinks they are. This directory should be deleted before moving.

History

#1 - 03/13/2011 08:58 PM - Ruben S. Montero

- Target version changed from Release 1.4.2 to Release 3.0

Scheduling this for 2.4. This should not be very common situation as it will only happen when reusing IDs, needs to be solved though

#2 - 05/08/2011 12:19 AM - Ruben S. Montero

- Assignee changed from Ruben S. Montero to Javi Fontan

#3 - 07/21/2011 08:25 AM - Ruben S. Montero

- Assignee deleted (Javi Fontan)

#4 - 10/04/2011 12:46 PM - Ruben S. Montero

- Target version deleted (Release 3.0)

- Affected Versions OpenNebula 3.0 added

#5 - 10/04/2011 03:29 PM - Ruben S. Montero

- Status changed from Assigned to New

#6 - 03/30/2012 02:47 PM - Ruben S. Montero

- Status changed from New to Closed

- Target version set to Release 3.4

- Resolution set to fixed

Done in TM scripts since OpenNebula 3.4
