#### History

##### #1 - 09/13/2013 08:56 PM - WH Wang

I just found there has been a patch for this bug in #2106

There is a little difference between mine and #2106. I get image source which will be attached from xpath \$DISK\_XPATH/SOURCE instead of an explicit "one/one-\$IMAGE\_ID" string. In some cases, we use a different Ceph pool name rather than default 'one'.

##### #2 - 10/02/2013 10:49 AM - Ruben S. Montero

- Status changed from Pending to Closed

- Resolution set to duplicate

Ok. THANKS for the patch moving the issue to #2106, and closing this
