

OpenNebula - Bug #2864

Sunstone upload progress bar glitch when uploading multiple images

05/02/2014 06:22 AM - Stuart Longland

Status:	Closed	Start date:	05/02/2014
Priority:	Low	Due date:	
Assignee:	Daniel Molina	% Done:	100%
Category:	Sunstone	Estimated time:	0.00 hour
Target version:	Release 4.8	Pull request:	
Resolution:	fixed		
Affected Versions:	OpenNebula 4.6		

Description

Hi all,

This is a minor nit, it appears when one starts uploading more than one image, OpenNebula Sunstone creates two progress bars, but only updates the first one.

Since the progress of each image is different, the progress of the first image appears to flicker between the states, while the remaining ones remain at 0%. It would appear that the JavaScript has the ID of the wrong bar and is erroneously updating the first one it sees.

This has been observed on Ubuntu 14.04 LTS on the server, OpenNebula 4.6 release from the OpenNebula APT repository and Firefox 27 (Gentoo Linux AMD64) on the client.

- File OpenNebula_Sunstone_Cloud_Operations_Center_-_2017-08-27_13.32.01.png added

Hi,

Many thanks for looking into it, but I hasten to add that the bug is back with OpenNebula 5.4.0... as can be seen in the screenshot attached. The progress bars are updating, but it seems the progress text of the first image is trying to show the progress of all three.

Regards,
Stuart Longland
