<b>Target version:</b>	Release 2.0	<b>Pull request:</b>	
<b>Resolution:</b>			
<b>Affected Versions:</b>			
<b>Description</b>			
<p>When a user tries to save a disk that wasn't created from an image, the -t option is mandatory. Without specifying the -t option, the command returns a not so helpful error: ID not defined</p> <p>onevm should allow to save disks as images without type, and let the core use the default one.</p>
