Target version:		Pull request:	
Resolution:	fixed		
Affected Versions:			
Description			
<p>Java OCA API 2.0 VirtualMachine.savedisk(int diskId, int imageId) always returns "not enough parameters". Savedisk code seems to not send VMID for the server.</p> <p>I changed the code as below and it works well.</p> <pre>VirtualMachine.java L230 return client.call(SAVEDISK, id, diskId, imageId);</pre>
