

OpenNebula - Bug #4357

Making any user config change resets VNC_WSS to 'no' PATCH INCLUDED

02/25/2016 02:47 AM - Bill Cole

Status:	Closed	Start date:	02/25/2016
Priority:	Normal	Due date:	
Assignee:	Daniel Molina	% Done:	100%
Category:	Sunstone	Estimated time:	0.10 hour
Target version:	Release 5.0	Pull request:	
Resolution:	fixed		
Affected Versions:	OpenNebula 4.12, OpenNebula 4.14		

Description

Revision 4c6e4986 removed the VNC encryption checkbox from the config tab UI, but the code using it to set vnc_wss remained. As a result, switching to a different Sunstone view flipped off encryption so VNC seemed to not work in the newly-chosen view.

The included patch is very simple: removes 6 lines (one empty) from one file in the 4.12 branch. This part of Sunstone has apparently been entirely refactored for 4.14, so it is likely not relevant to the trunk.

- Assignee set to Daniel Molina
- Target version set to Release 5.0
- Affected Versions OpenNebula 4.14 added

Hi Bill,

Thank you for the patch, as you mentioned it doesn't apply for one-4.14 since that code was removed/refactored.

That code should not modify the VNC wss configuration, but the problem is this other line in sunstone-server.rb that should also be removed from both one-4.12 and one-4.14, since the VNC wss configuration is retrieved from the server config file

<https://github.com/OpenNebula/one/blob/release-4.14.2/src/sunstone/sunstone-server.rb#L452>

#2 - 02/26/2016 09:49 AM - Daniel Molina

- *Status changed from New to Closed*

- *% Done changed from 0 to 100*

- *Resolution set to fixed*

Fixed, thank you
