

OpenNebula - Bug #4648

Delete VMs in poweroff leaves disks in datastore

07/15/2016 11:11 AM - OpenNebula Systems Support Team

Status:	Closed	Start date:	07/15/2016
Priority:	Normal	Due date:	
Assignee:	Jaime Melis	% Done:	90%
Category:	vCenter	Estimated time:	0.00 hour
Target version:	Release 5.4	Pull request:	
Resolution:	fixed		
Affected Versions:	Development		
Description			
Regardless of the Keep disks option in VM template. Deleting running VMs works as expected.

#4 - 09/06/2016 05:18 PM - Tino Vázquez

- Target version changed from Release 5.2 to Release 5.4

- Resolution deleted (duplicate)

Added hook as a workaround. In order to install the hook, follow the next steps:

1-

Add the following hook configuration to /etc/one/oned.conf

```
VM_HOOK = [  
  name    = "delete_poweroff_vms",  
  on      = "DONE",  
  command = "dv/delete_poweroff_vms.rb",  
  arguments = "$ID $PREV_STATE $PREV_LCM_STATE $TEMPLATE" ]
```

2- Restart OpenNebula

Rescheduled for 5.4 for proper vCenter storage handling. Before closing this issue, remove it from known issues and remove the hook from repo.
