

OpenNebula - Bug #4884

onedb fsck crash following migration from 4.14.1 to 5.2.0

10/27/2016 08:48 AM - Richard Stevenson

Status:	Closed	Start date:	10/27/2016
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Pull request:	
Resolution:	duplicate		
Affected Versions:	OpenNebula 5.2		

Description

Following a onedb upgrade, onedb fsck fails with the following trace. Logs of full db upgrade also attached.

```

Duplicates Bug # 4895: onedb fsck breaks with volatile disks

Closed**11/03/2016****History****#1 - 10/27/2016 08:52 AM - Richard Stevenson**

This could be a side effect of the gem installation failing prior to this step of the upgrade:

```
Fetching: bundler-1.13.6.gem (100%)  
Successfully installed bundler-1.13.6  
Parsing documentation for bundler-1.13.6  
Installing ri documentation for bundler-1.13.6  
1 gem installed  
lsb_release command not found. If you are using a RedHat based  
distribution install redhat-lsb
```

Select your distribution or press enter to continue without installing dependencies.

```
0. Ubuntu/Debian  
1. CentOS/RedHat/Scientific  
1
```

Distribution "redhat" detected.

About to install these dependencies:

- ruby-devel
- make

Press enter to continue...

```
yum install ruby-devel make
```

```
Loaded plugins: fastestmirror
```

```
Loading mirror speeds from cached hostfile * base: centos.hyve.com * centosplus: centos.hyve.com * epel: mirrors.coreix.net * extras: centos.hyve.com
```

```
* updates: mirror.sov.uk.goscomb.net
```

```
Package ruby-devel-2.0.0.598-25.el7_1.x86_64 already installed and latest version
```

```
Package 1:make-3.82-21.el7.x86_64 already installed and latest version
```

```
Nothing to do
```

```
sh: bundler: command not found
```

```
Error installing gems
```

#2 - 10/27/2016 09:30 AM - Richard Stevenson

Tried again, this time with the 'rubygem-bundler' package installed from centos 7 base (1.7.8-3.el7). Still the same stack trace from onedb fsck.

#3 - 11/03/2016 06:39 PM - Javi Fontan

I've just fixed the fsck problem in this issue:

<http://dev.opennebula.org/issues/4895>

Do you still have problems with install_gems?
