

OpenNebula - Bug #4943

Fix NETTX and NETRX negative values, polling time and accumulate values for vCenter

11/29/2016 09:02 AM - Miguel Ángel Álvarez Cabrerizo

Status:	Closed	Start date:	11/29/2016
Priority:	Normal	Due date:	
Assignee:		% Done:	100%
Category:	vCenter	Estimated time:	0.00 hour
Target version:		Pull request:	
Resolution:			
Affected Versions:	OpenNebula 5.2		

Description

vCenter's Performance Manager may give negative values if it thinks they're not still valid, these values should be ignored.

NETTX and NETRX should be accumulated with previous monitoring values.

Improve number of samples between polls using LAST_MON to track last time information was gathered from vCenter's performance manager.
