<b>Description</b>			
<p>Hello.</p> <p>I think it would be nice to give the user the option to calculate the current costs of his vms by himself. Can we have a button one the showback page maybe?</p> <p>thanks and cheers t.</p>

We evaluated this and reached the conclusion that triggering the compute on behalf of a user is dangerous in the sense that it could saturate the server with too many petitions.

We suggest implementing a cron task to do the calculation with the needed grain, for instance one hour.
