Target version:	Pull request:
Resolution:	
Affected Versions: OpenNebula 5.2	
Description	
<p>Hi,</p> <p>Not sure is this bug or feature, but it is sort of confusing so I am classifying it as bug.</p> <p>How to reproduce:</p> <ol style="list-style-type: none">1. Instantiate a VM2. Goto VM info3. Delete all available Attributes (on centos7.2 I have HYPERVISOR and LOGO)<ul style="list-style-type: none">- The Attributes will be populated with the data form the VM TEMPLATE4. Editing any of the attributes or add new attribute will update the USER_TEMPLATE with TEMPLATE plus the changes. <p>Expected behavior:</p> <ul style="list-style-type: none">- Empty Attributes with option/interface to create a new one. <p>Kind Regards, Anton Todorov</p>
