

OpenNebula - Bug #5309

HA: vip.sh arping parameter insufficient

08/11/2017 07:28 AM - Sledge Sulaweyo

Status:	Pending	Start date:	08/11/2017
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Core & System	Estimated time:	0.00 hour
Target version:		Pull request:	425
Resolution:			
Affected Versions:	OpenNebula 5.4		

Description

In larger environments the switch of the floating IP to a different host has to be announced via a unsolicited ARP packet to ensure that the switch updates it's ARP table accordingly. Without that a leader change is not propagated to the switch and on leader change access from other networks ends up at the wrong router port.

The change needed is minimal as just the parameter of the arping command has to be switched from -A to -U (<https://github.com/OpenNebula/one/pull/425>)

#1 - 08/18/2017 07:56 AM - Sledge Sulaweyo

I have added sudo as well as arping will not send the request without sudo
