

OpenNebula - Bug #5391

Dashboard statistics do not show actual VM name

09/25/2017 08:43 AM - Tobias Rehn

Status:	Closed	Start date:	09/25/2017
Priority:	Normal	Due date:	
Assignee:	Abel Coronado	% Done:	100%
Category:	Sunstone	Estimated time:	0.00 hour
Target version:	Release 5.4.2	Pull request:	
Resolution:	fixed		
Affected Versions:	OpenNebula 5.4		
Description			
<p>The VM had the original name "testing" and is now named "tr-privat".</p> <p>Check both screenshots.</p> <p>vm-name.png: shows actual name vm-dash-statistics.png: show still the old name</p> <p>I know the statistics are based on the daily values. VM renaming was done at the beginning of the last week.</p>

History

#1 - 09/26/2017 08:35 AM - Abel Coronado

- Assignee set to Abel Coronado

#2 - 09/26/2017 08:52 AM - Abel Coronado

Sunstone makes accounting groups according to OID. Several HISTORY_RECORDS can exist with the same OID. Sunstone take the first VM name instead of the last one. Should take the last VM name of the monitoring.

#3 - 09/26/2017 09:12 AM - Abel Coronado

- % Done changed from 0 to 100

#4 - 09/27/2017 08:38 AM - Tobias Rehn

So is it fixed? I do not see a commit for this problem.

#5 - 09/28/2017 02:11 PM - Tino Vázquez

- Status changed from Pending to Closed

- Resolution set to fixed

PR has been merged, this will be available in the next OpenNebula release.
