

OpenNebula - Feature #584

Sunstone Host monitoring confusing "init"

04/22/2011 10:08 PM - Steffen Neumann

Status:	Closed	Start date:	04/22/2011
Priority:	Low	Due date:	
Assignee:	Hector Sanjuan	% Done:	100%
Category:	Sunstone	Estimated time:	0.00 hour
Target version:	Release 3.0	Pull request:	
Resolution:	fixed		
Description			
Hi,			
sunstone shows hosts in the "hosts and clusters" view too often in the "init" state, where onehost shows them as "OK".			
Yours, Steffen

Revision b2dd5707 - 05/11/2011 03:55 PM - Hector Sanjuan

Request #584: Simplified host statuses in list.

History

#1 - 04/25/2011 07:55 AM - Hector Sanjuan

- Subject changed from Sonstone Host monitoring confusing "init" to Sunstone Host monitoring confusing "init"
- Assignee changed from Jaime Melis to Hector Sanjuan

Hi, can you give any more details?

What do you mean by too often? Does it switch from MONITORED or MONITORING states back to INIT at certain moments? Which drivers are you using (KVM/Xen...?)

#2 - 04/29/2011 05:59 PM - Hector Sanjuan

- File 0001-Request-584-Simplified-host-statuses-in-list.patch added
- Tracker changed from Bug to Feature
- Target version set to Release 3.0
- % Done changed from 0 to 100
- Resolution set to fixed

Hi, i have simplified the host status column so it looks like the cli, basicly showing ON,OFF,ERROR. The full status can be still checked on the advanced information.

#3 - 05/11/2011 03:58 PM - Daniel Molina

- Status changed from New to Closed
